Subject: Opposition to SB1013/Allowing Moose Hunting

Dear Mr. Mead - I wanted to advise you of my opposition to SB1013. There current herd of moose is around 500 to 600 in the Upper Peninsula, a far cry from the original goal of 1000 ten years ago. It is imperative that goal be reached before hunting is even considered. Personally, I am an avid wildlife watcher who enjoys nothing more than seeing a moose in the wild. We, the non hunters of this State, far outnumber those who enjoy killing the wildlife. I'm hopeful that you will keep my comments in mind during the hearings on Tuesday, March 16.
